## Disaster Assistance: A Guide to Recovery Programs

### Foreword

The federal government helps states and localities to prepare for disasters by providing financial and technical assistance for emergency planning and training, conducting exercises of plans, and building and maintaining an emergency management infrastructure. In a catastrophic or major disaster incident, the National Response Framework – a national approach to domestic incident management – will be activated. This interagency plan describes the resources that federal agencies can mobilize to support initial emergency functions, and how they will integrate with state, local, private sector, and non-governmental resources. It outlines planning assumptions, policies, a concept of operations, and organizational structures.

A governor may request a presidential declaration of disaster in the event of a disaster incident in which state and local emergency resources are overwhelmed. The request must satisfy the provisions of the *Robert T. Stafford Disaster Relief and Emergency Assistance Act*, as amended, which is the primary legislative authority for the federal government to assist state and local governments in carrying out their responsibilities for disaster response and recovery.

***Disaster Assistance: A Guide to Recovery Programs*** is a resource for federal, state, local, and non-governmental officials. It contains brief descriptions and contact information for programs from government, non-government, and corporate sources that may be able to provide disaster recovery assistance to eligible applicants. While *Disaster Assistance: A Guide to Recovery Programs* provides profiles of many of those programs; it is by no means a complete or perfect compilation. Please view the document as a starting point for individual research. Some programs described in this guide are available only after a presidential declaration of disaster, but others are available without a declaration. Please see the individual program descriptions for details.

This guide presents an array of programs that may be of assistance during disaster recovery – depending upon the circumstances, community needs, and available resources. Please verify the applicability of a particular program with the responsible agency. The user should always directly consult the provider of a potential resource for program changes and updates.

Resources in the *Guide* are identified for general informational purposes only, and compiled with publicly available information or with information provided by sources that are publicly obtainable.

# About This Publication

Resources in the publication are identified for general informational purposes only, and compiled with publicly available information or with information provided by sources that are publicly obtainable. Please use program summaries in this publication only as a guide to *potential* sources of assistance. The user should always directly consult the provider of a potential resource for program changes and updates. Sections III to IV of this guide reference nongovernmental and corporate giving programs. The appearance of any non-Federal resource does not imply an endorsement by any agency or representative of the Federal government. The summaries are by no means comprehensive or complete. Additional resources may be readily identified through independent research.

### **Purpose**

The purpose of this guide is to provide basic information about programs of assistance available to individuals, businesses, and public entities after a disaster incident. These programs help individuals cope with their losses, and affected businesses and public entities restore their structures and operations. The information is intended to serve as a starting point for disaster workers and local, state, and federal officials to locate sources of help as they seek more definitive information, such as eligibility criteria and application processes. Included are programs that make financial assistance available as well as those that provide technical assistance and/or goods and other services.

### **Background**

The program summaries in this guide evolved from an initial compilation of programs obtained from the *Catalog of Federal Domestic Assistance*, the compendium of financial and nonfinancial programs throughout the federal government that provide assistance or benefits to the American public. The relevant program summaries were reviewed and revised to reflect programs that are specifically intended to apply to disaster recovery and regular agency programs that, in special circumstances, may support disaster recovery.

Summaries of Federal programs include the notation “CFDA Number.” This refers to the program number found in the *Catalog of Federal Domestic Assistance*.

The *Catalog of Federal Domestic Assistance* includes a comprehensive list of federal, regional, and local office addresses and telephone numbers that are also a useful reference for obtaining program information. The *Catalog of Federal Domestic Assistance* can be obtained from the Internet and U.S. General Services Administration (GSA)’s free CFDA website at [www.cfda.gov](http://www.cfda.gov). However, if interested in purchasing the *Catalog of Federal Domestic Assistance* from the Government Printing Office, contact the Superintendent of Documents at 202-512-1800 or toll free at 866-512-1800, or reach GPO’s online bookstore at: <http://bookstore.gpo.gov>.

## Organization and Use of Sections I and II

The objective of this guide is to reference a full range of recovery assistance programs and services available.

Eligibility requirements may be more comprehensive or more restrictive than they appear to be in this guide. It is important, therefore, to obtain additional information about program eligibility from the program sources.

The summaries in Sections I (Disaster-Specific Recovery Programs) and Section II (Disaster-Applicable Recovery Programs) are based upon federal government programs. Each group of programs has a distinct purpose. The disaster-specific programs (I) exist for the express purpose of aiding survivors of a disaster incident, and the disaster-applicable programs (II) are regular agency programs that may be applied to disaster incident recovery under special circumstances. Section I program summaries include slightly more information than Section II programs, as reflected below. Inclusion of a program does not necessarily mean that assistance is available.

Congress may authorize a program but may not appropriate funds for it in a given fiscal year. Current efforts of Congress and the administration to streamline government also may result in the elimination of some of the programs or consolidation into larger block grants. The Sections I and II program summaries are organized alphabetically by subject or title, whichever is more accurate and readily understood.

As a further aid, summaries typically reference the following information:

1. Identification of the federal agency or nongovernmental (foundation or corporate) organization that has primary responsibility for administration of the program.
2. The type of assistance available, including advisory and counseling services; direct payments; donations; education, technical information, and training; formula grants, project and other grants; loans; sale of goods or property; specialized services; and technical assistance.
3. Category of recipient of assistance, as follows: federal agencies, states, localities, nonprofit organizations (sometimes specified by category, such as universities or organizations that do the work of government), businesses, and individuals.

## Community Recovery Resource Guide

---

Assistance to individuals may include funds for temporary housing (for any person impacted by disaster), individual and family grants to meet disaster-related expenses, and loans to individuals for repair or replacement of real and personal property. Funds may flow directly from the federal government to the individual or from the federal government to the individual through a state or a subdivision of a state, or from a nonprofit organization to the individual.

Assistance to businesses (including farms and sole proprietorships) generally is made available when the ability to continue operations is terminated or impaired by a disaster. Such assistance may include loans or grants to replace livestock herds, restore damaged structures, or replace inventories.

Assistance to public entities (states, localities, etc.) comprises measures such as repair or replacement of non-federally supported thoroughfares and water control facilities (e.g., dikes, irrigation works, levees, and drainage systems) and clearance of debris necessary to protect the public interest. It also includes repair or replacement of federal buildings, state-supported schools, or public facilities in U.S. trust territories or on Native American lands. It includes loans to communities that have incurred substantial losses of tax and other revenue and the use of government-owned equipment, supplies, facilities, personnel, and other resources.

Recipients of public assistance may include states, political subdivisions of states (counties or parishes), any type of organization under the aegis of a state agency, localities (municipalities, unincorporated towns, water control districts, etc.), U.S. trust territories or possessions, Indian tribes, universities, or other nonprofit organizations.

### **Obtaining a Data Universal Numbering System (DUNS ) Number: Guidance for Federal Grant and Cooperative Agreement Applicants**

The Federal government's Office of Management and Budget requires that all applicants for Federal grants and cooperative agreements – with the exception of individuals, other than sole proprietors – have a Data Universal Numbering System number (please reference policy at: [https://www.whitehouse.gov/sites/default/files/omb/grants/duns\\_num\\_guide.pdf](https://www.whitehouse.gov/sites/default/files/omb/grants/duns_num_guide.pdf)). The Federal government will use the Data Universal Numbering System number to better identify related organizations that are receiving funding under grants and cooperative agreements, and to provide consistent name and address data for electronic grant application systems. Many federal agencies now also require applicants to register annually in the System for Award Management (SAM). This task can be completed online ([www.sam.gov](http://www.sam.gov)) in approximately thirty minutes. Applicants should allow a minimum of five days for System for Award Management applications to be processed.

#### **Data Universal Numbering System (DUNS) Number**

The Data Universal Numbering System number is a unique nine-digit identification number provided by Dun & Bradstreet.

The Data Universal Numbering System number is site-specific. Therefore, each distinct physical location of an entity (such as branches, divisions, and headquarters) may be assigned a Data Universal Numbering System number. Organizations should try and keep Data Universal Numbering System numbers to a minimum. In many instances, a central Data Universal Numbering System number with a Data Universal Numbering System number for each major division/department/agency that applies for a grant may be sufficient.

In order to provide on-the-spot Data Universal Numbering System number assignment, the requestor should do this by telephone (see telephone number below).

**Section I: Disaster-Specific Recovery  
Programs**

### Overview

Programs summarized in this section have been specifically authorized for use in assisting affected individuals, businesses, and/or public entities to recover from the consequences of a disaster incident. Benefits under these programs generally are triggered by a presidential declaration of a major disaster or emergency under the Robert T. Stafford Disaster Relief and Emergency Assistance Act. The Secretary of Agriculture and the administrator of the Small Business Administration may also declare disasters within the purview of their agencies and provide disaster assistance under their statutory authorities.

A major disaster is defined as any natural catastrophe or – regardless of cause – any fire, flood, or explosion that causes damage of sufficient severity and magnitude to warrant assistance to supplement state, local, and disaster relief organization efforts to alleviate damage, loss, hardship, or suffering. A disaster declaration can only be issued via presidential determination.

An emergency is defined as any occasion or instance for which federal assistance is needed to supplement state and local efforts to save lives and protect property and public health and safety, or to lessen or avert the threat of a catastrophe. An emergency declaration can only be issued by the President.

A governor may request that the President declare a major disaster or emergency when available state and local resources are insufficient. The request must satisfy the provisions of the Stafford Act. Concurrent with a presidential declaration, the President designates the types of assistance to be made available under the Stafford Act. This may include Individual Assistance, Public Assistance, and/or Hazard Mitigation Assistance. Depending upon the situation, other federal disaster relief programs may be activated as well.

A discussion of the general procedures and process for requesting federal assistance and the type of assistance that may be available – with or without a presidential declaration – appears in the FEMA publication, Disaster Assistance, A Guide to Recovery Programs (FEMA 229, September 2005). To order, contact the FEMA Distribution Center at Post Office Box 430 / Buckeystown, MD 21717 / 800- 480-2520 or [FEMA-Publications-Warehouse@dhs.gov](mailto:FEMA-Publications-Warehouse@dhs.gov).

RECIPIENTS: Businesses and individuals

PURPOSE / FUNDING PRIORITIES: USDA Farm Service Agency's Emergency Conservation Program (ECP) provides emergency funding and technical assistance for farmers and ranchers to rehabilitate farmland damaged by natural disasters and for carrying out emergency water conservation measures in periods of severe drought. Funding for ECP is appropriated by Congress. For land to be eligible, the natural disaster must create new conservation problems that, if untreated, would:

- Impair or endanger the land
- Materially affect the land's productive capacity
- Represent unusual damage which, except for wind erosion, is not the type likely to recur frequently in the same area
- Be so costly to repair that federal assistance is or will be required to return the land to productive agricultural use.

Conservation problems existing prior to the applicable disaster are ineligible for ECP assistance.

ASSISTANCE PROVIDED:

- Direct payments for specified use
- Technical assistance may be provided by USDA's Natural Resources Conservation Service

COST-SHARING REQUIREMENTS: ECP program participants receive cost-share assistance of up to 75 percent of the cost to implement approved emergency conservation practices, as determined by county FSA committees. Individual or cumulative requests for cost-sharing of \$50,000 or less per person, per disaster are approved at the county committee level. Cost-sharing from \$50,001 to \$100,000 is approved at the state committee level. Cost-sharing over \$100,000 must be approved by FSA's national office.

ELIGIBILITY: Any agricultural producer who, as owner, landlord, tenant, or sharecropper on a farm or ranch (including associated groups), bears a part of the cost of an approved conservation practice in a disaster area.

### Highway Planning / Construction Emergency Relief Program

AGENCY: Department of Transportation (DOT) / Federal Highway Administration (FHWA)

RECIPIENTS: Federal agencies and states

ACTIVATING MECHANISM: Serious damage to federal-aid roads or roads on federal lands caused by a natural disaster or by catastrophic failure.

PURPOSE / FUNDING PRIORITIES: To provide aid for the repair of federal-aid roads and roads on federal lands. Congress authorized in Title 23, United States Code, Section 125, a special program from the Highway Trust Fund for the repair or reconstruction of Federal-aid highways and roads on Federal lands which have suffered serious damage as a result of: 1) natural disasters or 2) catastrophic failures from an external cause. This program supplements the commitment of resources by states, their political subdivisions, or other federal agencies to help pay for unusually heavy expenses resulting from extraordinary conditions. The applicability of the ER program to a natural disaster is based on the extent and intensity of the disaster. Damage to highways must be severe, occur over a wide area, and result in unusually high expenses to the highway agency. Applicability of ER to a catastrophic failure (due to an external cause) is based on the criteria that the failure was not the result of an inherent flaw in the facility, but was sudden; caused a disastrous impact on transportation services, and resulted in unusually high expenses to the highway agency.

ASSISTANCE PROVIDED:

- Special funding to states and federal agencies
- Technical assistance to states and federal agencies

COST-SHARING REQUIREMENTS: Federal share is 100 percent for eligible emergency repairs done within 180 days of the disaster; otherwise, the federal share is based on the type of federal-aid highway that is being repaired. For interstate highways, the federal share is 90 percent; for all other federal-aid highways, the federal share is 80 percent. For roads on federal lands, the federal share is 100 percent for both emergency and permanent repairs.

ELIGIBILITY: State highway/transportation agency or federal agency.

APPLICATION: A notice of intent to request ER funds filed by the State Department of Transportation with the FHWA Division Office located in the state will initiate the ER application process.

### HOME Investment Partnerships Program

**AGENCY:** Department of Housing and Urban Development (HUD) / Community Planning and Development (CPD)

**RECIPIENTS:** Individuals via states and localities

**ACTIVATING MECHANISM:** Non disaster-related formula program under which waivers and statutory suspensions may be provided to jurisdictions that have received a presidential declaration of a major disaster under the Stafford Act.

**PURPOSE / FUNDING PRIORITIES:** To expand the supply of affordable housing, particularly rental housing, for low and very low income Americans and to strengthen the abilities of state and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing. To provide both financial and technical assistance to participating jurisdictions, including the development of model programs for developing affordable low income housing; and to extend and strengthen partnerships among all levels of government and the private sector, including for-profit and nonprofit organizations, in the production and operation of affordable housing.

**ASSISTANCE PROVIDED:**

- Formula grants

Grants are made to participating jurisdictions and states for housing rehabilitation, tenant-based rental assistance, assistance to homebuyers, acquisition of housing, and new construction of housing. Funding may also be used for other necessary and reasonable activities related to the development of non-luxury housing – such as site acquisition, site improvements, demolition, and relocation.

**COST-SHARING REQUIREMENTS:** Each jurisdiction must make matching contributions for affordable housing throughout a fiscal year in an amount not less than 25 percent of the HOME funds drawn from the U.S. Treasury during the federal fiscal year for projects. Recovery Programs**

## Community Recovery Resource Guide

### Overview

In addition to the disaster-specific programs summarized in Section I, federal agencies may use funds from regular, ongoing programs to support disaster recovery. Access to these programs depends on a number of factors, including whether Congress has appropriated funds for the program (authorization may exist for a program, but Congress generally must appropriate funds on a fiscal year basis), and agency willingness and ability to divert funds for disaster purposes. If funds are made available under these regular agency programs, duplication of benefits must be avoided. Federal agencies are prohibited by law from providing financial assistance to any person or entity impacted by a disaster incident (individual, business, or other entity) who receives financial assistance for the same purpose under any other source.

### Certified Local Government Program

AGENCY: National Park Service

RECIPIENTS: Cities, Towns and Counties

**PURPOSE / FUNDING PRIORITIES:** The Certified Local Government Program is a preservation partnership between local, state and national governments focused on promoting historic preservation at the grass roots level. The program is jointly administered by the National Park Service (NPS) and the State Historic Preservation Offices (SHPOs) in each state, with each local community working through a certification process to become recognized as a Certified Local Government (CLG). CLGs then become an active partner in the Federal Historic Preservation Program and the opportunities it provides.

**ASSISTANCE PROVIDED:** The key reason a community should be a CLG is the access certification provides to the expert technical advice of the State Offices as well as the NPS. Partnerships with the National Alliance of Preservation Commissions, Preserve America, the National Trust for Historic Preservation, and the National Main Street Center are also networks that CLGs have an opportunity to tap into. Of course, access to Federal funding is another benefit, making certified communities able to access the portion of Federal funds set aside by each SHPO for just CLGs annually. Being a CLG also shows your community's commitment to keeping what is significant from the past for future generations. As a certified town, city, or county seeking other opportunities, it becomes easy to demonstrate a readiness to take on a preservation project and be successful.

**COST-SHARING REQUIREMENTS:**

**ELIGIBILITY:** A prospective CLG community must address the following minimum goals to demonstrate to the State and NPS that they are committed to historic preservation.

- Establish a qualified historic preservation commission.
- Enforce appropriate State or local legislation for the designation and protection of historic properties. In most cases this is done in the form of a local ordinance.
- Maintain a system for the survey and inventory of local historic resources.
- Provide for public participation in the local historic preservation program, including participation in the National Register process.
- Follow any additional requirements as outline in the State's Procedures for Certification.
- Each state has Procedures for Certification that are approved by NPS, and often establishes additional requirements for becoming a CLG in that state. Contact your State CLG Coordinator to learn more about any additional requirements.

### Community-Based Restoration Programs

AGENCY: Department of Commerce / National Oceanic and Atmospheric Administration (NOAA)

RECIPIENTS: States, localities, educational institutions, and nonprofit organizations

PURPOSE / FUNDING PRIORITIES: To provide grants and cooperative agreements for habitat conservation activities including coastal and marine habitat restoration and protection. Projects are funded to carry out public policy pertaining to protection and restoration of the nation's wetlands and other coastal habitats. Research and management includes determining the effects of habitat modifications and contaminants on populations of living marine resources, restoring depleted stocks that have been adversely impacted by habitat modifications, determining if artificial or restored habitat fulfills essential habitat needs of living marine resources, and quantifying contaminants and debris that pose a hazard to populations of these animals.

Funds can be used by recipients to support a wide variety of habitat restoration activities, coral reef conservation, construction, management, public education activities, and research for marine and estuarine habitats. Restoration includes, but is not limited to, activities that contribute to the return of degraded or altered marine, estuarine, coastal, and freshwater (diadromous fish) habitats to a close approximation of their function prior to disturbance. Habitat restoration activities that produce significant ecological habitat features to create buffers or "green infrastructure" that serve to protect coastal communities from sea level rise, coastal storms and flooding, or that provide adaptation to climate change are also included. Projects funded under this CFDA primarily support NOAA's "Ecosystems" mission support goal of "Protect, Restore, and Manage Use of Coastal and Ocean Resources through Ecosystem-Based Management."

ASSISTANCE PROVIDED:

- Project grants

Funding range is \$15,000 to \$36,000,000 with the typical award being \$35,000 to \$200,000.

COST-SHARING REQUIREMENTS: Project costs are funded at up to 100 percent. Grantee matching contributions vary by specific funding opportunity. Under the Community-based Restoration Program guidelines, projects are encouraged to demonstrate a minimum nonfederal match of 50 percent of the total cost needed to complete the proposed project to be most competitive.

ELIGIBILITY: State and local governments, including their universities and colleges; US territorial agencies, federally and state recognized Indian tribal governments; private universities and colleges, private profit and nonprofit research and conservation organizations, and/or individuals. Applicants are required to satisfy all DOC/NOAA standards and regulations, including routine and special terms and conditions, for financial assistance programs application and conduct. OMB Circular #A-87 applies to this program.

APPLICATION: Contact the headquarters or regional office for application deadlines. Grants and cooperative agreements are approved on an annual basis, but may be continued beyond the first segment (subject to approved time frame and scope of work), satisfactory progress, and availability of funds.

### Conservation Stewardship Program (CSP)

**AGENCY:** Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

**RECIPIENTS:** Individual producers, legal entities, corporations, and Indian tribes operating agricultural or private non-industrial private land

**PURPOSE / FUNDING PRIORITIES:** CSP is a voluntary program that encourages agricultural and forestry producers to address resource concerns by undertaking additional conservation activities, and improving and maintaining existing conservation systems.

**COST-SHARING REQUIREMENTS:** Not applicable to this program

**ASSISTANCE PROVIDED:** Through five-year contracts, NRCS will offer participants two potential types of payment. An annual payment will be made for installing new conservation activities and maintaining existing stewardship. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period.

**ELIGIBILITY:** CSP is available on Tribal and private agricultural lands and non-industrial private forest land in all 50 States, the District of Columbia, the Caribbean, and Pacific Island areas. The program provides equitable access to all producers – regardless of operation size, crops produced, or geographic location. Eligibility is limited to “private” agricultural land; as such, land that is owned by a Federal, State, or local unit of government – with the exception of agricultural land under the jurisdiction of an Indian Tribe – is ineligible, regardless of the status of the operator. Likewise, land enrolled in the Conservation Reserve Program, Wetlands Reserve Program, Grasslands Reserve Program, and Conservation Security Program is ineligible for CSP. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, non-industrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land – including cropped woodland, marshes, and agricultural land used for the production of livestock – on which resource concerns related to agricultural production could be addressed.

**APPLICATION:** CSP is offered as a continuous sign-up, and applications are accepted year-round with periodic ranking cut-off dates announced during the year. Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the CMT resource inventory. CMT will estimate the level of environmental benefit to be achieved by the applicant. The CMT conservation performance scoring will enable NRCS to determine if the stewardship threshold requirement is met, rank applications relative to those of other applicants, and establish payments.

RECIPIENTS: Individuals and/or groups of decision makers, Tribes, states, communities, nonprofit organizations, and businesses.

PURPOSE / FUNDING PRIORITIES: NRCS and its partners deliver technical assistance through the voluntary Conservation Technical Assistance Program (CTA). CTA helps land users address opportunities, concerns, and problems related to the use of natural resources and to help land users make sound natural resource management decisions on private, Tribal, and other non-federal lands. The assistance may be in the form of resource assessment, conservation planning, practice design, resource monitoring, or follow-up of installed practices. Through its objectives and priorities, CTA aims to:

- Reduce soil loss from erosion

- Improve the long term sustainability of all lands – including cropland, forestland, grazing lands, coastal lands, and developed and/or developing lands and
- Assist others in facilitating changes in land use as needed for natural resource protection and sustainability.

Technical assistance is the help provided by NRCS, employees of other entities or agencies under the technical supervision of NRCS, to clients to address opportunities, concerns, and problems related to the use of natural resources. The CTA program does not include financial or cost-share assistance. Clients may develop conservation plans, which may serve as a springboard for those interested in participating in USDA financial assistance programs. CTA planning can also serve as a door to financial assistance and easement conservation programs provided by other federal, state, and local programs. CTA is available to any group or individual interested in conserving natural resources, and sustaining agricultural production in this country.

RECIPIENTS: Owners of land in agricultural or forest production or persons who are engaged in livestock, agricultural, or forest production on eligible land and that have a natural resource concern on the land.

PURPOSE / FUNDING PRIORITIES: A voluntary program that provides financial and technical assistance to agricultural producers through contracts up to a maximum term of ten years in length. National EQIP initiatives and statute supported programs include:

- Local Focus Areas: Cropland, Grazing, and Livestock Waste
- Agricultural Water Enhancement Program (AWEP)
- EQIP Conservation Activity Plans (CAP)
- Conservation Innovation Grants (CIG) – a competitive grant program
- Cooperative Conservation Partnership Initiative (CCPI) – a competitive grant program
- Organic Program Initiative
- Air Quality Initiative
- Energy Initiative
- Forestry Initiative
- Seasonal High Tunnel Initiative

Producers may use a certified Technical Service Provider (TSP) for technical assistance needed for certain eligible activities, services and the development of conservation plans. Historically underserved producers may also be eligible for advance payments up to 30 percent of the cost needed to purchase materials or contracting services to begin installation of approved conservation practices. NRCS works with the producer to develop a plan of operations that:

- Identifies the appropriate conservation practice or measures needed to address identified natural resource concerns; and
- Implements conservation practices and activities according to an EQIP plan of operations developed in conjunction with the producer that identifies the appropriate conservation practice or measures needed to address identified natural resource concerns. The practices are subject to NRCS technical standards adapted for local conditions.

ASSISTANCE PROVIDED:

- Direct payments for specified use

Participants may not receive, directly or indirectly, payments that – in aggregate – exceed \$300,000 for all EQIP contracts entered into during any six-year period. Participants whose projects NRCS determines to have special environmental significance may petition the NRCS Chief for the payment limitation to be waived to a maximum of \$450,000. Additional payment limitations apply to producers enrolled in the EQIP Organic Initiative.

COST-SHARING REQUIREMENTS: Conservation practices may be eligible for conservation payments up to 75 percent of the total cost of establishing the practice, including costs of foregone income. Limited resource producers, socially disadvantaged producers, and beginning farmers/ranchers may be eligible for payments up to 90 percent of the approved practice cost.

ELIGIBILITY: Farmers and ranchers. The program is carried out primarily in priority areas, which may be watersheds, regions, or multi-state areas, and for significant statewide natural resource concerns that are outside the geographic priority areas. Eligible applicants are producers who face serious threats to soil, water, and related natural resources, or who need assistance with complying with federal and state environment laws.

AGENCY: Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

RECIPIENTS: State, Tribal, or local governments and non-governmental organizations

PURPOSE / FUNDING PRIORITIES: To provide funding to eligible entities to purchase development rights through conservation easements to limit conversion to non-agricultural uses of farm and ranch lands that contain prime, unique, or important soils; that contain historical and archaeological resources; or that support the policy of a state or local farmland protection program. To qualify, farmland must: 1) be part of a pending offer from a State, Tribe, or local farmland protection program 2) be privately owned 3) have a conservation plan for highly erodible land 4) be large enough to sustain agricultural production 5) be accessible to markets for what the land produces 6) have adequate infrastructure and agricultural support services and 7) have surrounding parcels of land that can support long-term agricultural production.

COST-SHARING REQUIREMENTS: Each eligible entity is required to contribute towards the cost of acquiring the conservation easement. The eligible entity must contribute a minimum of 25 percent of the purchase price of the easement (appraised fair market value minus the landowner donation). Each eligible entity is required to fund its own administrative costs in acquiring easements – such as appraisals, surveys, title searches, and costs incurred in managing and enforcing the easements. Cooperating entities are responsible for 50 percent of the fair market value of the conservation easement.

The Federal share for any easement acquisition is limited to a maximum of 50 percent of the appraised fair market value of the conservation easement.

ELIGIBILITY: An eligible entity is any local or State agency, county or group of counties, municipality, town or township, or Indian tribe or tribal organization that has a farmland protection program that purchases conservation easements for the purpose of protecting agricultural use and related conservation values by limiting conversion to non-agricultural uses of land, and that has pending offers. Landowners must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

APPLICATION: Entities must submit an application form and supporting data for each parcel to the appropriate State Conservationist of the Natural Resources Conservation Service (NRCS). The application form and supporting information required for the application are available from the State Offices of the NRCS and USDA/NRCS home page, respectively. ### Federal Crop Insurance Program

AGENCY: Department of Agriculture (USDA) / Risk Management Agency (RMA)

RECIPIENTS: Businesses and individuals

PURPOSE / FUNDING PRIORITIES: To promote the national welfare by improving the economic stability of agriculture through a sound system of crop insurance and providing the means for the research and experience helpful in devising and establishing such insurance. Crop insurance provides comprehensive protection against weather related causes of loss and certain other unavoidable perils that may result in low yields, poor quality, delayed planting, replanting, and inability to plant. In addition, some plans of insurance also protect the insured against price declines. Benefits include cash flow protection, good loan collateral, enhanced marketing flexibility, stability for long-term business plans, and family security. The government shares in the premium costs. As of 2004, the Risk Management Agency (RMA) insured 370 commodities and more than 43,400 county-commodity plan combinations in primary production areas throughout the United States. Coverage levels of 50 to 85 percent are available for most individual plans of insurance, while group plans typically offer coverage levels of 65 to 90 percent. For some plans of insurance, at the time of purchase, the insured also selects the percentage (from 60 to 100 percent) of the RMA established expected market price on which premiums will be assessed and qualifying losses will be indemnified. A minimum coverage level of Catastrophic Risk Protection (CRT) is available for an administrative fee of \$100 per crop, per county.

ASSISTANCE PROVIDED:

- Direct payments of insurance claims

COST-SHARING REQUIREMENTS: None

ELIGIBILITY: The program is open to all persons who hold an insurable interest in a crop and county for which a federal crop insurance policy is available.

- Map the location, ownership and stewardship of protected areas
- Document the representation of vertebrate species and land cover types in areas managed for the long-term maintenance of biodiversity
- Provide this information to the public and those entities charged with land use research, policy, planning, and management
- Build institutional cooperation in the application of this information to state and regional management activities.

GAP conducts national as well as regional and state projects, utilizing cooperative efforts among federal, state, and regional agencies, and private organizations.

### Grassland Reserve Program (GRP)

AGENCY: Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

RECIPIENTS: Landowners, operators, or Tribes who have general control of the acreage. Units of government and non-governmental organizations can participate through cooperative agreements.

PURPOSE / FUNDING PRIORITIES: A voluntary program to assist landowners and operators in restoring and protecting eligible grazing lands – including rangeland, pastureland, and certain other lands – through easements, rental contracts, restoration agreements, and cooperative agreements.

COST-SHARING REQUIREMENTS: For GRP acquisitions made through a Cooperative Agreement, each eligible entity is required to provide at least fifty percent of the purchase price of the conservation easement. Purchase price is defined as the appraised fair market value minus any landowner donation. The landowner donation is the reduction in value that the landowner will accept as payment for the sale of the conservation easement. Each eligible entity is required to fund its own administrative costs in acquiring easements – such as *appraisals*, surveys, title searches, and costs incurred in managing/enforcing the easements.

**ASSISTANCE PROVIDED:**

- Direct payments for a specified use (fifty percent of actual installation cost)
- Technical assistance

GRP rental contracts and restoration agreements are limited to \$50,000 per person / per year. County rental rates range from \$7.50 to \$21.00 per acre /per year.

ELIGIBILITY: Only landowners may submit applications for easements; landowners and others – including operators and tenants – who have general control of the acreage may submit applications for rental contracts. All participants are subject to the Adjusted Gross Income (AGI) provision. This limitation provides that individuals and entities who have an AGI exceeding \$1 million (for the three tax years immediately preceding the year the contract is approved) are not eligible to receive program benefits, unless 66.6 percent (2/3) of the AGI is derived from farming, ranching, or forestry operations.

APPLICATION: Applications can be obtained through local USDA service centers or the website of the Natural Resources Conservation Service office and may be submitted at any time. USDA will establish criteria to evaluate and rank applications for easement and rental contract enrollment. Individual project selection will be made by State level USDA officials.

## Habitat Conservation

AGENCY: Department of Commerce (DOC) / National Oceanic and Atmospheric Administration (NOAA) / National Marine Fisheries Service (NMFS)

RECIPIENTS: States, localities, nonprofit organizations, businesses, and individuals

PURPOSE / FUNDING PRIORITIES: To provide grants and cooperative agreements for habitat conservation activities, including coastal and marine habitat restoration and protection. Funds can be used by recipients to support a wide variety of habitat restoration, coral reef conservation, construction, management, public education activities, and research for marine and estuarine habitats – especially for species currently under, or proposed for, federal or inter-jurisdictional management. Restoration includes—but is not limited to—activities that contribute to the return of degraded or altered marine, estuarine, coastal, and freshwater (diadromous fish) habitats to a close approximation of their function prior to disturbance. Habitat restoration activities that produce significant ecological habitat features to create buffers or “green infrastructure” that serve to protect coastal communities from sea level rise, coastal storms and flooding, or that provide adaption to climate change are also included.

ASSISTANCE PROVIDED:

- Project Grants (Cooperative Agreements)

Funding ranges from \$15,000 to \$36,000,000.

COST-SHARING REQUIREMENTS: Statutory formulas, if any, are specific to programs that fall under this CFDA number. Project costs are funded at up to 100 percent. Grantee matching contributions vary by specific funding opportunity, however. Under the Community-based Restoration Program guidelines, projects are encouraged to demonstrate a minimum nonfederal match of 50 percent of the total cost needed to complete the proposed project to be most competitive. A 1:1 match is required for the General and International Coral Reef Conservation Grant Programs and grants under the Marine Debris Research, Prevention, and Reduction Act (MDRPR), although the MDRPR Act allows the NOAA Administrator to waive all or part of the matching requirement in certain instances.

ELIGIBILITY: State and local governments, including their universities and colleges; U.S. territorial agencies; federally and state-recognized Indian tribal governments; private universities and colleges; private for-profit and nonprofit research and conservation organizations; and individuals.

- Project grants (discretionary)

Grants typically \$200,000 to \$1,000,000.

COST-SHARING REQUIREMENTS: The maximum federal cost share for this program is 75 percent of total project costs in states that have a fund established and used for acquiring coastal wetlands, other natural areas, or open spaces. States that do not have a fund are limited to a maximum 50 percent federal cost share. The following insular areas: American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands are not required to provide a match, in which case the federal government may provide 100 percent of the project costs.

RECIPIENTS: States, communities, Tribes, nonprofit organizations, businesses, individuals.

PURPOSE / FUNDING PRIORITIES: The National Cooperative Soil Survey (NCSS) is an effort of Federal and State agencies, universities, and professional societies to deliver science-based soil information. USDA Natural Resources Conservation Service (NRCS) provides access to the largest natural resource information system in the world. NRCS has soil maps and data available online for more than 95 percent of the nation's counties. Web Soil Survey (<http://websoilsurvey.nrcs.usda.gov>) provides a single authoritative source of soil survey information and data. A soil survey is a detailed report on the soils of an area. The soil survey has maps with soil boundaries and photos, descriptions, and tables of soil properties and features. The purpose of the NCSS is to maintain up-to-date, published soil surveys (and soil survey data in other formats) of counties or other areas of comparable size for use by interested agencies, organizations, and individuals; and to assist in the use of this information to make land use and management decisions. The information for many regions is now available online.

### Partnership for Sustainable Communities

AGENCY: Housing & Urban Development (HUD) / Department of Transportation (DOT) / Environmental Protection Agency (EPA)

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Sustainable communities are places that have a variety of housing and transportation choices, with destinations close to home. As a result, they tend to have lower transportation costs, reduce air pollution and storm water runoff, decrease infrastructure costs, preserve historic properties and sensitive lands, save people time in traffic, are more economically resilient and meet market demand for different types of housing at different price points. Rural, suburban, and urban communities can all use sustainable community strategies and techniques to invest in healthy, safe, and walkable neighborhoods. These strategies will look different in each place, depending on the community's character, context, and needs. The partnership agencies periodically offer funding opportunities. When these grants are offered, they will be announced on [www.sustainablecommunities.gov/](http://www.sustainablecommunities.gov/) and on [www.grants.gov](http://www.grants.gov). Funding is also available for rural communities with populations of less than 50,000. Initiatives include:

- HUD offers funding opportunities to help communities realize their own visions for building more livable, walkable, and environmentally sustainable regions
- DOT offers funding opportunities to support more livable, walkable communities
- EPA offers grants to support activities that improve the quality of development and protect human health and the environment.

ASSISTANCE PROVIDED:

- Project Grants

Funding typically ranges from \$100,000 to \$3,000,000.

ELIGIBILITY: State and local governments – including U.S. territories, tribal governments, political subdivisions of state or local governments, and multi-state or multi-jurisdictional groupings.

## Plant Materials Program

AGENCY: Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

RECIPIENTS: Cooperating State and Federal agencies and cooperators of conservation districts where structured evaluations are conducted, and commercial seed growers and nurserymen interested in the commercial production of selected plant materials.

PURPOSE / FUNDING PRIORITIES: Many of today's environmental challenges can be addressed through the use of plants. Plants hold soil in place, protect stream banks and shores, filter pollutants, offer food for livestock, and cover for wildlife. They heal the land after wildfire and mining, floods, and drought. They beautify our surroundings. The mission of the Plant Materials Program has always been to find plant solutions to solve conservation problems. Plant Materials Centers (PMCs) around the Nation have developed over 600 conservation plant releases of grasses, legumes, forbs, shrubs, and trees. Finding these uniquely evolved plants to meet specific conservation needs has been-- and continues to be--the focus of the Plant Materials Program. These plants literally provide protection for millions of acres across our Nation. No tool offers more versatility or is more cost effective for long-term environmental protection and improvement than plants. The USDA Natural Resources Conservation Service (NRCS), through its network of 27 strategically located Plant Materials Centers, delivers needed plants and plant technology throughout the United States. The Program is dedicated to developing plants and plant technology to solve conservation problems.

COST-SHARING REQUIREMENTS: Not applicable

ASSISTANCE PROVIDED:

- Provision of specialized services

The Plant Materials Program provides application-oriented technology including technical publications, fact sheets, and releases of conservation plants, conservation plant identification, tools for conducting plant materials work and land restoration, and other plant information. The Plant Materials Program does NOT provide seed or plants to the general public.

ELIGIBILITY: Limited to the properties of conservation cooperators working in conjunction with soil conservation districts, State Agricultural Experiment Stations, State Crop Improvement Associations, and other Federal and State Agencies in all 50 states and territories. The general public is not eligible to participate in the program.

APPLICATION: This is not a competitive grant program; there are no deadlines. Please contact NRCS for participation guidelines and restrictions.

### Smart Growth Implementation Assistance Program

AGENCY: Environmental Protection Agency (EPA) / Office of Sustainable Communities

RECIPIENTS: State, local, regional, and tribal governments, and nonprofits that have partnered with a governmental entity.

PURPOSE / FUNDING PRIORITIES: EPA's Smart Growth Implementation Assistance program is an annual, competitive solicitation open to state, local, regional, and tribal governments – along with nonprofits that have partnered with a governmental entity – that want to incorporate smart growth techniques into their future development. Once selected, communities receive direct technical assistance from a team of national experts in one of two areas: 1) policy analysis, such as reviewing state and local codes, school siting guidelines, transportation policies, etc.; or 2) public participatory processes, such as visioning, design workshops, alternative analysis, build-out analysis, etc. The assistance is tailored to the community's unique situation and priorities. EPA provides the assistance through a contractor team rather than a grant. Through a multiple-day site visit and a detailed final report, the multidisciplinary team provides information to help the community achieve its goal of encouraging growth that fosters economic progress and environmental protection.

EPA initiated the SGIA program in 2005 with three goals in mind:

- To support communities interested in implementing smart growth policies
- To create regional examples of smart growth that can catalyze similar projects in the area
- To identify common barriers and opportunities for smart growth development and create new tools that other communities can use.

ASSISTANCE PROVIDED:

- Direct Technical Assistance (\$75,000 value)

COST-SHARING REQUIREMENTS: None

ELIGIBILITY: The applicant must be a tribal, state, local, or regional government; or an incorporated nonprofit organization domiciled in the United States that has a demonstrated partnership with a governmental agency. Applicants must be located in – and project activities must be conducted within – the United States, Puerto Rico, or a territory or possession of the U.S.

## Wetlands Reserve Program

AGENCY: Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

RECIPIENTS: Private landowners and Tribes

**PURPOSE / FUNDING PRIORITIES:** The Wetlands Reserve Program is a voluntary program offering landowners the opportunity to protect, restore, and enhance wetlands on their property. The USDA Natural Resources Conservation Service (NRCS) provides technical and financial support to help landowners with their wetland restoration efforts. The NRCS goal is to achieve the greatest wetland functions and values – along with optimum wildlife habitat – on every acre enrolled in the program. This program offers landowners an opportunity to establish long-term conservation and wildlife practices and protection. Eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber – including rangeland and forest production land, lands substantially altered by flooding, and certain riparian areas, along with certain adjacent areas. A deed restriction covering the land approved under easement must be recorded in the local land deeds office. Subject to the acceptance of an offer by the federal government, the landowner will receive financial and technical assistance to install necessary restoration practices on the land. Lump sum or annual payments of equal or unequal value (for a period up to 30 years) are made for permanent or 30-year easements. In cases involving restoration only, participants receive restoration cost-share and technical assistance with no easement payment.

**ASSISTANCE PROVIDED:**

- Direct payments for specified use

For permanent easements, USDA pays 100 percent of the geographic area rate cap and up to 100 percent of the restoration costs. For 30-year easements, USDA pays up to 75 percent of the restoration costs. For 10-year restoration cost share agreements, USDA pays up to 75 percent of the actual restoration costs.

**COST-SHARING REQUIREMENTS:** Required for 30-year easement restoration and for non-easement restoration cost-share agreements.

**ELIGIBILITY:** Lands that meet the program requirements for eligibility. Applicants may be an individual landowner, partnership, association, corporation, estate, trust, Indian tribe, or other business or legal entity. The landowner must have owned the land offered for at least 7 years unless a waiver is granted by the State Conservationist in area of succession and there are adequate assurances that the land was not acquired for the purpose of enrolling in WRP. Applicant must meet all other person and land eligibility requirements, such as Adjusted Gross Income and HEL/Wetland Conservation compliance.

### Wildlife Habitat Incentive Program (WHIP)

**AGENCY:** Department of Agriculture (USDA) / Natural Resources Conservation Service (NRCS)

**RECIPIENTS:** A participant may be an owner, landlord, operator, or tenant of eligible lands – including cropland, grassland, pasture, and other land determined by NRCS to be suitable for wildlife habitat development.

**PURPOSE / FUNDING PRIORITIES:** The Wildlife Habitat Incentive Program (WHIP) is a voluntary program that provides financial and technical assistance to help participants protect, restore, develop, or enhance habitat for upland wildlife, wetland wildlife, threatened and endangered species, fisheries, and other types of wildlife on private agricultural land, non-industrial private forest land, and Indian land. WHIP in New York will have two focus areas: 1) enhancing early successional wildlife habitat with shrub land; and 2) establishing and enhancing grassland habitat for declining bird species, pollinators, and other grassland wildlife species. Examples of eligible practices include planting of new wildlife seedlings, management activities like mowing and fertilizing, prescribed burning, and early successional clearings to enhance shrub land habitat.

**ASSISTANCE PROVIDED:**

- Direct payments for specified use
- Technical assistance

Average contract payments are estimated to be \$4,500.

**COST-SHARING REQUIREMENTS:** Installation of cost-share practices to develop wildlife habitat can be funded by cost-sharing up to 75 percent of the total cost of establishing the conservation practice by NRCS. Program participants or nonfederal partners provide the remaining 25 percent. Other conservation practices may be required to be installed without program payments.

**ELIGIBILITY:** Applicant must meet Highly Erodible Land and Wetland Conservation (HEL/WC) requirements, Adjusted Gross Income (AGI) requirements, verification that applicant will be in control of land for the duration of a contract. A participant may be an owner, landlord, operator, or tenant of eligible lands. Limited resource producers; small scale producers; producers of minority groups; Federally Recognized Indian Tribal Governments; Alaska natives; Pacific Islanders; State, county, or local government owned lands are encouraged to apply. NRCS will give special consideration to applicants who have WPOs that address wildlife habitat concerns consistent with National and state priorities.

**APPLICATION:** The applicant applies at the local service center – reference link (<http://www.sc.egov.usda.gov>) for location – on Form NRCS-CPA-1200. Applications may be filed at any time during the year, and will be ranked and selected for funding, based on the wildlife habitat benefits. These benefits are derived and the extent the cost-share agreement will assist in achieving the wildlife habitat priority goals and objectives in the area where the land unit is located.

Those customers who need additional services to find or retain employment may receive "training" services linked to job opportunities in their communities, including both occupational training and training in basic skills. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program.

ASSISTANCE PROVIDED:

- Formula grants to the 50 States, Puerto Rico, the District of Columbia, and outlying areas; sub-grants to local workforce investment areas to provide workforce investment activities through One-Stop Career Centers.

COST-SHARING REQUIREMENTS: Not applicable

ELIGIBILITY: All adults 18 years and older are eligible for core services. Priority for intensive and training services must be given to recipients of public assistance and other low-income individuals when funds are limited. ### Bay and Paul Foundations, Inc.

AGENCY: The Bay and Paul Foundations, Inc.

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The majority of our grants are now directed to professional development with an emphasis on facilitative, distributive leadership and to the intentional interruption of inequitable policies, practices, and cultural norms. Funding priorities include:

- National School Change supports a variety of efforts to empower students and teachers by promoting the practice of democracy in schools, encouraging student voice, advancing an ethic of environmental stewardship, and integrating academic course work with meaningful community service. In addition, we support math/science programs and projects that seek to strengthen the developmentally critical role of the arts.
- Student Voice seeks to honor authentic student expressions through programs that promote creative writing, playwriting, and journalism; and initiatives that encourage meaningful student participation in the governance of their schools.
- Service Learning grantees assure student participation in the design and implementation of all phases of a project and provide rich, meaningful opportunities for reflection throughout – with the knowledge, skills, and dispositions acquired by the students aligned with curricular goals and relevant state standards.
- Math and Science focuses on programs that emphasize engaging, hands-on learning opportunities. First time grants are geographically restricted to the greater New York City metropolitan area.
- Arts-in-Education grants most often support projects that are integrated with other curriculum and that include a professional development component for classroom teachers. First time grants are geographically restricted to the greater New York City metropolitan area.
- Endangered Species: We continue to make small grants for research and intervention efforts on behalf of endangered species, both in the United States and internationally.

## CDC Foundation

AGENCY: CDC Foundation

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** The CDC Foundation connects the Centers for Disease Control and Prevention (CDC) with private-sector organizations and individuals to build public health programs that make our world healthier and safer. Since 1995, the CDC Foundation has provided \$300 million to support CDC's work, launched more than 500 programs around the world and built a network of individuals and organizations committed to supporting CDC and public health. Each CDC Foundation program involves a talented team of experts at CDC and at least one outside funding partner. Sometimes, a program begins with a CDC scientist who has a great idea and wants to collaborate with an outside partner to make it happen. At other times, organizations in the private sector recognize that they can better accomplish their own public health goals by working with CDC through the CDC Foundation.

**ASSISTANCE PROVIDED:**

- Project Grants

**ELIGIBILITY:** Partnerships forged by the CDC Foundation include traditional philanthropic donor/grantee relationships; collaborative alliances between CDC and a single private sector organization; broad multi-partner initiatives that may include more than one funding stream; and research collaborations involving CDC expertise and laboratory capacity associated with a partner's larger proposal and CDC's public health agenda. Occasionally the CDC Foundation may issue a request for proposals (RFPs) to sub-grant funds received for a specific project. These RFPs will seek:

- Providers of products or services required for a specific CDC Foundation program with CDC
- Eligible nonprofit or governmental organizations that wish to participate in a CDC Foundation program addressing a specific health issue.

### Charles Lafitte Foundation

AGENCY: The Charles Lafitte Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The mission of the Charles Lafitte Foundation (CLF) is to provide for and support inventive and effective ways of helping people help themselves and others around them to lead healthy, satisfying, and enriched lives. To fulfill this mission, the foundation acts as grant maker, innovator, and volunteer for four main programs:

- **Education:** The foundation provides support for innovative programs aimed at resolving social service issues, assisting students with learning disabilities, providing technology and computer based education, creating access to education of the arts, supporting at-risk children from pre-school to college, and providing learning enhancement – including the development of leadership skills. The Education Program includes support for research and conferences, as well as support for programs that promote academic excellence in institutions of higher learning.
- **Children's Advocacy:** The foundation is committed to improving the "quality of life" of children by supporting programs which encourage children to reach their fullest potential. The best chance a child has to reach that goal is to be provided with sufficient education, health care, housing, and love. To that end, the foundation supports programs that deal with issues such as child abuse, foster housing, literacy, educational advancement, after-school programs, hunger projects, and the general well-being of children. The mission of the Children's Advocacy Program is to improve outcomes for children and youth of all ages and to maintain a vital, attractive community where children and families can thrive.
- **Medical Research & Issues:** The foundation supports innovative programs; research that promotes health, scientific, and educational activities; and disease prevention. The foundation supports efforts that help people live healthy and productive lives and assists specific groups with serious and neglected problems. Emphasis is given to cancer research and treatment, children's health, health education, promoting healthy life styles, and bettering the quality of life for patients.
- **The Arts:** As one of the primary outlets of human creativity, art is a vital resource in developing and maintaining healthy communities. As school budgets are often short on cultural opportunities, the foundation will favor educational programs that encourage students to release their creativity, inspire them to learn, and empower them with achievement.

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The C.S. Fund and Warsh-Mott Legacy are private foundations which are linked by common issue interests and boards of directors. CSF and WML are dedicated to preserving biodiversity, defending democracy, preventing the commoditization of life, and protecting human and environmental health. - **Economic Globalization:** Grant-making in this category balances short term efforts that oppose the NAFTA/WTO/FTAA trade regimes with long term efforts to develop alternative economic models. We are especially concerned about the lack of democracy that permeates the current system. This program also supports efforts to establish law at the intersection of human rights and the environment.
- **Food Sovereignty:** Grant-making in this area is designed to promote seed saving, encourages soil building, and protects pollinating insects and animals. We favor initiatives that are farmer-led and incorporate elements of traditional agriculture.
- **Civil Liberties:** This category focuses on protecting the constitutionally guaranteed right to dissent and preserving an accountable and transparent government. On a more limited basis, we support efforts to curb undue government surveillance powers and defend the due process rights of all Americans.
- **Emerging Technologies:** We are developing a new program aimed at addressing the potential risks of nanotech, as well as its convergence with other technologies.
- **Board Initiated Grants:** Occasionally the foundations may initiate support for projects that fall outside of their established priorities. These include (but are not limited to) efforts to advance the precautionary principle and the commons.

### CVS Caremark Charitable Trust, Inc.

AGENCY: CVS Caremark Charitable Trust, Inc.

GEOGRAPHIC FOCUS: The CVS Caremark Charitable Trust accepts applications from organizations in communities across the country where CVS Caremark has a presence.

PURPOSE / FUNDING PRIORITIES: The CVS Caremark Charitable Trust focuses primarily on supporting charitable organizations that are making a difference in the lives of children with disabilities. Resources are also allocated to help support organizations focused on providing healthcare to the uninsured. Funding is awarded for:

- Grants to support Children with Disabilities or programs targeting children under age 21 with disabilities that address any of the following:
- *Health and Rehabilitation Services* – We believe that health and rehabilitation services are critical in ensuring that children with disabilities develop the skills needed to live as independently as possible at home, in school, and in the community. Our *CVS Caremark Community Grants* support programs that promote independence among children with disabilities, including physical and occupational therapies, speech and hearing therapies, assistive technology, and recreational therapies.
- *Enabling and Encouraging Physical Movement and Play* – We believe that play is essential to healthy development (physical, cognitive, emotional and social) and offers a means of understanding the world. Therefore, we are devoted to the principle of free play. The unstructured, spontaneous, voluntary activity that is so engaging for children has long been recognized as the most beneficial form. Proposed programs may include either physical activities or play opportunities for children and should address the specific needs of the population served.
- Grants to support Health Care for the Uninsured and Underserved support programs that ensure that more uninsured people receive needed care, that the care received is of higher quality, and that the uninsured are served by providers who participate in accountable community health care programs. There is no age limit on proposed programs that create greater access to health care services.
- Grants to support Public Schools work to ensure that students are not left behind in school. Proposed programs must be fully inclusive where children with disabilities are full participants in an early childhood, adolescent, or teenage programs alongside their typically developing peers.

## eBay Foundation

AGENCY: eBay Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The foundation's mission is to assist nonprofits in fundraising; and to improve the economic and social well-being of local communities. Combining innovative fund raising with modern technology, eBay has developed several programs to assist nonprofits and persons in need:

- GIVE Teams: Employees recommend projects based on deserving causes in their communities and bring to them a combination of funds and volunteers.
- eBay Giving Works & eBay for Charity: Sellers can donate a percentage of their item's final sale price to a nonprofit organization certified for the program. Buyers can purchase the items identified by the distinctive blue-and-yellow ribbons, or add a minimum \$1 donation at checkout to any eBay purchase paid through PayPal. Nonprofits can receive donations and sell their own goods for free to raise funds on eBay. And, through PayPal, all eBay members can make a direct cash donation at the nonprofit's *Donate Now* page.
- MicroPlace: A simple investment \$20 has the power to help someone (who is on the margins of society) become economically productive, and potentially to transform lives. It will fund part of a loan that will enable recipients to start businesses, support themselves and their families, and build self-confidence. Investors benefit as well, getting their money back – with interest – when the investment matures.
- PayPal Nonprofits: In 2008, more than 100,000 organizations used PayPal to raise over \$850 million. In partnership with Blackbaud, PayPal is helping new and growing nonprofits reach their fundraising goals with a point-and-click website builder, BlackbaudNow, with secure donation processing and the ability to send emails and record donors' giving histories. In late 2008--when PayPal and eBay teamed up to offer eBay customers the ability to donate a dollar at checkout--\$1 million dollars was donated to a variety of nonprofits in the first three months.

eBay Foundation also joins eBay in coordinated disaster response efforts, in the wake of natural disasters. Its businesses enable global fundraising from its customers, and the foundation provides financial assistance to provide relief for people impacted by devastating events.

ASSISTANCE PROVIDED:

- Project Grants
- Volunteerism

ELIGIBILITY: Nonprofits should contact the foundation to obtain certification requirements.

DEADLINE: The foundation does not accept unsolicited funding proposals. Please reference the website for additional information.

## Edward Lowe Foundation

AGENCY: The Edward Lowe Foundation

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** The foundation actively embraces and encourages entrepreneurship as the source and strategy for economic growth, community development, and economically independent individuals. The foundation embraces the concept of "economic gardening," a unique and proven economic development strategy based on the fundamental concept that entrepreneurs drive economies. Economic gardening helps drive the creation and growth of local businesses by providing a supportive and enriched environment where these businesses not only grow, but richly thrive. The foundation supports entrepreneurship by focusing on second-stage entrepreneurs, and the belief that they are vital to the United States economy. A second-stage business is defined by the foundation as:

- Privately held
- Past the startup stage and focused on growth
- Facing issues of growth rather than survival
- Generating between \$750,000 and \$50 million in annual revenue or has that range of working capital in place from investors or grants
- Employing from 10 to 99 full-time equivalent employees, including the owner.

To find out if your organization is a good match for the Edward Lowe Foundation, ask yourself the following questions. The more "yes" answers that are generated, the more likely we will be able to enhance or support your work.

- Does your organization support or assist entrepreneurs at the local, regional or national level in the United States?
- Does your organization facilitate interaction among entrepreneurs through peer-to-peer events or activities?
- Does your organization include second-stage business owners, CEOs or presidents as your audience?
- Is your organization university- or college-based with a strong commitment to outreach programs?
- Is your group an independent organization concerned with regional economic development?

**ASSISTANCE PROVIDED:**

- Unlike grant-making foundations, the Edward Lowe Foundation seldom awards grants to individuals or organizations. It is an operating foundation whose mission emphasizes support services for groups of second-stage business owners, and for other entrepreneurial support organizations rather than grants.

## Good 360

AGENCY: Good 360

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** Good 360 provides a solution to companies looking for efficient ways to donate large quantities of new products to qualified charities. Industry donors provide a wide range of items – including technology, education, health, personal care, apparel and footwear, products for home improvement, appliances, automotive, toys, sporting, and office products. Good 360 accepts donations of only new products. The only exception is newly, refurbished technology. Current partners include: Bed Bath & Beyond; Hewlett Packard; The Home Depot; Mattel; and Williams-Sonoma.

**ASSISTANCE PROVIDED:**

- In-Kind Donations

There are three ways Good360 can get donated products to your organization:

- *Browse our catalog and place an order:* It's just like online shopping, but the product is FREE – you only pay a service fee to help cover shipping and handling. Browse our current warehouse inventory of available product donations at any time, place an order, and we do the rest. Within two days, your product is shipped to your door. Some of our donors may even cover the service fee for you, and our social networking tools (coming soon) will let you activate your own donor network to raise the money online.
- *Pick up donations from a local retail store for a whole year:* Work with us to partner with a retail store or business right in your neighborhood. During the year, your nonprofit can pick up donations directly from the store, cutting out the shipping costs. Choose to partner with one store for a period of time, up to one year. (An annual fee applies for each retail partnership.)
- *Receive one-time local donations:* A great way to “test drive” a partnership agreement! Companies approach us all the time with one-time donation opportunities that are available for direct pick-up in specific locations. You can find these with our real-time mapping feature on [www.good360.org](http://www.good360.org) or we regularly notify member nonprofits in the surrounding area about these first-come, first-served opportunities.

**ELIGIBILITY:** Organizations must register and be approved. Reference the website to access the eligibility process.

**DEADLINE:** Requests for donations are accepted from registered “member” organizations throughout the year. Please reference the website for complete guidelines and restrictions.

### Heinz Family Foundation

AGENCY: Heinz Family Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The Heinz Family Philanthropies sponsor a myriad of programs on issues ranging from aging to the environment, and from the arts to women's economic opportunities. Here, we focus on several of our larger, independent programs, plus *WISR – the Women's Institute for a Secure Retirement* – in which the Philanthropies play a key supporting role. Other initiatives include:

- The Environment: The Philanthropies sponsor initiatives that bring together policy makers with leaders from academia, the business community, and the environmental movement.
- Human Health and Aging: We believe that realistic solutions to difficult health challenges must be rooted in the marketplace. They must address complex economic realities. But we are equally attuned to the intensely human dimensions of our projects and initiatives. Through partnerships with several state governments, we are working to provide comprehensive prescription drug benefits to the elderly and affordable health coverage for the uninsured.
- Women's Economic Opportunities: The Heinz Family Philanthropies sponsor initiatives designed to educate and empower women to save and prepare for the future. It also examines the larger issue of a retirement and pension system that remains unresponsive (and, in many cases, simply ill-suited) to address their particular needs.
- Cultural and Societal Enrichment: Democracy is precious; the opportunities of free citizenship are powerful, and both require vigorous and constant vigilance.

ASSISTANCE PROVIDED:

- Project Grants
- Capital Campaign / Building / Renovation

ELIGIBILITY: The foundation makes grants only to prior selected organizations that are public charities as described in Section 501(c)(3) of the Internal Revenue Code. The foundation does not make grants to individuals.

### Johnson & Johnson Family of Companies Contribution Fund

AGENCY: Johnson & Johnson Family of Companies Contribution Fund

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Johnson & Johnson and its many operating companies support community-based programs that improve health and well-being. Our community partners show us where our giving can help the most. We listen to them and we learn from them so that the programs we support make a meaningful difference in people's lives. Together with our partners, we are helping mothers and infants survive childbirth. We are supporting doctors, nurses, and local leaders as they work to provide the best medical care to their people. And we are educating communities on how to reduce their risk of infection from preventable diseases. The desire to make people healthier and safer is at the heart of our company's giving. Johnson & Johnson supports a wide range of programs focused on three key strategies:

- Saving and improving the lives of women and children
- Building the skills of people who serve community health needs, primarily through education
- Preventing diseases and reducing stigma and disability in underserved communities where Johnson & Johnson has a high potential for impact.

The Johnson & Johnson Family of Companies has responded consistently to major natural and man-made disasters around the world. In the immediate aftermath of any major disaster, Johnson & Johnson works through its key international relief partners and local affiliates to assess and rapidly respond – in many cases within hours – to critical health needs with an array of consumer, pharmaceutical, and medical products. Through partners such as: MAP (Medical Assistance Programs) International, Johnson & Johnson routinely deploys disaster relief modules in key global “hot spots” prone to earthquakes, hurricanes, and other catastrophes. These modules include: wound care, infection prevention, analgesic, and orthopedic products. Additionally, employees at local Johnson & Johnson companies volunteer to help in communities most affected. Johnson & Johnson also contributes funds to not-for-profits to provide food and water, and health care to those affected by social and civil unrest. AmeriCares, Direct Relief International, International Aid, MAP International, and Salvation Mission Warehouse have been partnering with the company for many years. Johnson & Johnson is moving toward the future of disaster relief – response through preparation. Beyond pre-placing disaster relief modules, Johnson & Johnson has partnered with charitable and medical organizations to ensure that those who serve people at high-risk are better prepared for disasters, resulting in fewer injuries and deaths.

### MetLife Social Investment Program

AGENCY: MetLife, Inc.

GEOGRAPHIC FOCUS: The Social Investment Program gives special consideration to investments in communities where MetLife has a major presence, and to organizations that are regional or national in scope.

PURPOSE / FUNDING PRIORITIES: Through the use of debt and equity investments, MetLife's Social Investment Program supports community development ventures that do not meet the customary investment criteria of private and institutional investors. Established in 1984, the Program has made commitments of over \$1 billion to underwrite projects in affordable housing, commercial revitalization, land preservation, health care centers, economic development, arts, and education. The following program areas are targeted:

- **Community Revitalization:** Projects that build or stabilize communities, such as: new or renovated housing for low- and moderate-income people, revitalize deteriorated commercial districts, or provide service enriched facilities for groups with special needs, such as: the homeless and mentally ill.
- **Economic Development:** Programs that stimulate economic growth in distressed areas, develop or expand businesses in low income areas, or promote training and job opportunities for individuals at an economic disadvantage.
- **Health:** Health-related services for underserved areas or populations, with an emphasis on preventive care.

The Social Investment Program provides financing to a wide range of projects and organizations. Investments are made with community development financial institutions (CDFIs), which then re-lend these funds to support community development projects. MetLife also makes mortgage loans, purchases bonds backed by community development loans to provide liquidity to local lenders, and makes a variety of tax credit investments with a focus on Low Income Housing Tax Credit transactions.

ASSISTANCE PROVIDED:

- Loans

Usually structured as loans, social investments offer favorable rates for projects which address significant social needs. Amounts, rates, and terms are considered on a case-by-case basis. However, investments of \$3-5 million with terms under ten years are preferred.

ELIGIBILITY: Investments are considered primarily for nonprofit organizations, and their subsidiaries. In addition, investments with a clearly demonstrated social purpose in for-profit entities are considered on a case-by-case basis. In general, the program is seeking organizations with a record of achievement, and the potential for growth that apply innovative approaches to emerging or intractable social problems.

DEADLINE: MetLife welcomes requests for social investments within the guidelines and program areas set forth. Inquiries can be made by email describing the organization and its proposed project – including its social purpose and economic feasibility. Requests will be accepted and reviewed throughout the year. Please keep information brief; additional information will be requested, if necessary.

### Mockingbird Foundation

AGENCY: The Mockingbird Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The Mockingbird Foundation, Inc. was incorporated in 1997 by fans of the band Phish to raise funds for music education. We are also interested in supporting unconventional forms of instruction, and instruction in unconventional forms. And we are not focused on traditional performance skills, but are also interested in composition, vocalization, and improvisation. The board has historically been more interested in programs that engage students directly with music, rather than in funding musical performances for students who would only observe others experiencing music.

ELIGIBILITY: Public schools and U.S. based, nonprofit, charitable organizations with federal tax exemption as described by Section 501(c)(3) of the Internal Revenue Code. AGENCY: The National Education Association Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Throughout the year, the NEA Foundation awards close to 200 grants to support educators' efforts to close the achievement gaps, develop creative learning opportunities for students, and enhance their own professional development. There are two primary grant categories open to public education professionals:

- **Student Achievement Grants:** The NEA Foundation provides grants to improve the academic achievement of students in U.S. public school, and public higher education institutions in any subject area(s). The proposed work should engage students in critical thinking and problem solving that deepen their knowledge of standards-based subject matter. The work should also improve students' habits of inquiry, self-directed learning, and critical reflection. Proposals for work resulting in low-income and minority student success with honors, advanced placement, or other challenging curricula are particularly encouraged. The grant amount is \$5,000.
- **Learning and Leadership Grants:** These grants support public school teachers, public education support professionals, and/or faculty and staff in public institutions of higher education for one of the following two purposes: Grants to individuals fund participation in high-quality professional development experiences, such as summer institutes or action research; or Grants to groups fund collegial study, including study groups, action research, lesson study, or mentoring experiences for faculty or staff new to an assignment. The grant amount is \$2,000 for individuals and \$5,000 for groups engaged in collegial study. All \$5,000 group grant applicants must include partner information.

*NEA's Books Across America Library Books Awards* provide \$1,000 grants to public schools serving economically disadvantaged students to purchase books for school libraries.

*The NEA Foundation – Nickelodeon Big Help Grants* are available in the form of Student Achievement grants to K-8 public school educators. ### National Fish and Wildlife Foundation

AGENCY: National Fish and Wildlife Foundation (NFWF)

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** The National Fish and Wildlife Foundation supports hundreds of projects across the country – in grasslands, estuaries, mountain meadows, coral reefs, high desert, and coastal lake plain – to protect and restore our nation’s lands and waters. NFWF provides funding on a competitive basis to projects that sustain, restore, and enhance our nation’s fish, wildlife, and plants and their habitats. Foundation grants address challenges facing key endangered, threatened, or declining species that are indicators for overall ecosystem health. These grants target birds, freshwater fish, wildlife and habitat, and marine and coastal ecosystems. Success in restoring these at-risk populations will demonstrate measurable progress in protecting crucial landscapes and watersheds. The foundation also targets specific conservation needs in restricted geographic areas through partnerships with federal agencies, corporations and others.

Another important component of the foundation's approach to conservation investment is the Impact-Directed Environmental Account (IDEA) program. The IDEA program receives, manages, and disburses funds that originate from court orders, settlements of legal cases, regulatory permits, licenses, and restoration and mitigation plans. Through the IDEA program, the foundation acts as a neutral third-party fiduciary to manage funds for the benefit of government and private-sector stakeholders. The foundation works collaboratively with these partners to invest and grow designated monies, while at the same time helping to ensure that the funds are applied to the most effective conservation and restoration projects.

**ASSISTANCE PROVIDED:**

- Matching Grants

**ELIGIBILITY:** Federal, state and local governmental agencies; tribal, education institutions, and nonprofit conservation organizations.

**DEADLINE:** Vary according to funding program. Please reference the website for program-specific deadlines, guidelines, restrictions, and access to online application process.

## National Forest Foundation

AGENCY: National Forest Foundation (NFF)

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The foundation provides grants for forest protection and preservation for our nation's forests and capacity building for future sustainability. Current initiatives include:

- On the Ground: The National Forest Foundation (NFF) provides grants to nonprofit organizations for the implementation of projects that directly benefit National Forest System lands. The NFF funds important stewardship work through three distinct award programs:
  - *Matching Awards Program* provides challenge grants for organizations to implement a broad range of action-oriented, on-the-ground conservation, restoration and citizen-based monitoring projects that benefit National Forests and Grasslands. Current priorities center on recreation, wildlife habitat enhancement, watershed health, and community forestry. A 1:1 cash match is required.
  - *Wilderness Stewardship Challenge* provides challenge grants for organizations to implement projects that directly support specific wilderness stewardship goals, helping to advance the Forest Service 10-Year Wilderness Stewardship Challenge. Matching requirements vary by U.S. Forest Service region.
  - *Ski Conservation Fund* is a unique program that pairs contributions from guests at ski areas and lodges nationwide with NFF award funds to support National Forest stewardship. The program provides challenge grants to nonprofit organizations for the implementation of action-oriented, on-the-ground conservation and restoration projects that benefit the same National Forest from which they originate. Current priorities center on recreation, wildlife habitat enhancement, watershed health, and community forestry. A 50 percent cash or in-kind match is required.
- Capacity Building Programs: Through work over the past seven years, we have increasingly appreciated the importance and effectiveness of a "full package" approach to support community-based conservation (funding, technical assistance, mentoring, capacity-building workshops, and facilitation of peer learning opportunities to enable sharing of stories and best practices). The National Forest Foundation supports the field of collaboration to meet the needs of collaborative efforts at various stages of growth and capacity, from start-up to sustainable organizations. We seek to nurture groups along their path with grants, technical support and resources, and access to peers in the field to enhance the groups' knowledge and skills.

## New World Foundation

AGENCY: The New World Foundation

The foundation also supports the networks that link local, immediate concerns to larger issues of social justice, racial equality, economic development, and political power.
- The New Majority Fund: Supports expanding the electorate by engaging the least enfranchised; forging alliances across race, class, and gender lines; designing policy agendas that will re-direct public resources to support human needs, sustain the environment, and enrich democratic culture; link local activism to political power by creating leadership streams for public office and participatory government practice; grow in scope to influence the broader political climate; and achieve national impact by organizing across states and sectors.
- The Phoenix Fund for Workers & Communities: Seeks to organize the unorganized; expand peer-to-peer networks; create strategic alliances; launch pro-active policy campaigns; build leadership streams; demonstrate that immigrant voting power can be decisive in many places where new Americans hold a potential balance of power.

- Maintenance grants, for organizations that serve as anchors for others
- Initiative grants, for projects which add value to ongoing work
- Inquiry grants, which include seed grants and matching grants

### Patagonia Environmental Grants

AGENCY: Patagonia Environmental Grants

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Patagonia funds only environmental work. The company is most interested in making grants to organizations that identify and work on the root causes of problems and that approach issues with a commitment to long-term change. The company helps local groups working to protect local habitat. The company looks for innovative groups that produce measurable results, and likes to support efforts that force the government to abide by its own laws. An applicant's efforts should be quantifiable – with specific goals, objectives, and action plans – and should include measures for evaluating success. Because it is a privately held company, Patagonia has the freedom to fund groups off the beaten track, and that's where small grants are most effective.

These often represent extraordinary initiatives that do not fit within the previously referenced program areas. At times, this program serves as a laboratory for new ideas. ## Rockefeller Brothers Fund, Inc.

AGENCY: Rockefeller Brothers Fund, Inc. (RBF)

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The Rockefeller Brothers Fund advances social change that contributes to a more just, sustainable, and peaceful world. Grant making is organized around three themes: Democratic Practice, Sustainable Development, and Peace and Security; and into three pivotal places: New York City, Southern China, and Western Balkans. Grant making in the three themes is not tied to the three pivotal places and is national/international:

- Democratic Practice: This program has two parts – strengthening democracy in the United States and strengthening democratic practice in global governance.
- Sustainable Development: This program pursues development strategies at three levels – global, national, and local.
- Peace and Security: This program focuses on two factors – (1) the content and style of U.S. global engagement in the face of new perils and opportunities; and (2) the strength and quality of relationships between Muslim and Western societies.

ASSISTANCE PROVIDED:

- Project Grants
- General / Operating Support
- Technical Assistance
- Research

ELIGIBILITY: To qualify for a grant from the Rockefeller Brothers Fund, a prospective grantee in the United States must be either a tax-exempt organization, or an organization seeking support for a project that would qualify as educational or charitable. The RBF is unable to provide support to individuals.

DEADLINE: The Fund accepts applications on a rolling basis. While the Fund does not require applicants to complete a formal application, applicants are strongly encouraged to complete the online Letter of Inquiry (LOI) form to initiate the application process. The online LOI asks applicants to provide the information that the Fund requires to determine whether a proposed project is compatible with the fund's funding priorities. Please reference the website for complete guidelines and restrictions.

### Rockefeller Family Fund, Inc.

AGENCY: Rockefeller Family Fund, Inc.

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES:

- **Citizen Participation and Government Accountability:** Grants in this program area support the efforts of nonpartisan organizations to help citizens exercise the right to vote, advocate for structural improvement to systems of government, and otherwise increase opportunities to participate in public policy formation.
- **Economic Justice for Women:** The program seeks to provide women with equitable employment opportunities and to improve their work lives.
- **The Environment:** This program emphasizes public education on the risk of global warming and implementation of sound solutions, conservation of natural resources, protection of health as affected by the environment, meaningful implementation and enforcement of the nation's environmental laws, and public participation in national environmental policy debates.
- **Institutional Responsiveness:** This program's purpose is to help provide organizations with the means to affect the policies and actions of public and private institutions.

ASSISTANCE PROVIDED:

- Project Grants
- Technical Assistance

Funding typically ranges from \$25,000 to \$30,000. Grants are normally made to the same organization for no more than two years at a time and – except in extraordinary cases – are not given for more than three or four consecutive years.

**ELIGIBILITY:** The Family Fund supports tax-exempt organizations engaged in activities of national significance. Thus, the Fund does not ordinarily consider projects which pertain to a single community, except in the rare instance where a project is unique, strategically placed to advance a national issue, or is likely to serve as a national model. Because the Fund has limited resources, it is unable to assist most applicants. Grants are rarely made to organizations which traditionally enjoy popular support – such as universities, museums, hospitals, or endowed institutions. The Family Fund does not make grants for academic or scholarly research, or for social or human service programs.

**DEADLINE:** Letters of Inquiry (LOI) may be sent at any time. Applicants should submit an LOI of no more than two pages summarizing the goals of the project, the strategy or plan for achieving the goals, and the amount of funding requested. Full proposals are accepted by invitation only. Please reference the website for complete guidelines and restrictions.

ASSISTANCE PROVIDED:

- Project Grants
- Research

Grants are frequently multi-year grants for multi-year projects.

ELIGIBILITY: U.S. based, nonprofit, charitable organizations with federal tax exemption under Section 501(c)(3) of the Internal Revenue Code. ### Sparkplug Foundation

AGENCY: Sparkplug Foundation

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Funds start-up organizations and innovative new projects in music, education, and community organizing. Sparkplug gives preference to projects run on small budgets, projects of smallish organizations, and projects that are less likely to receive corporate, institutional, or government funding. Along the same lines, the foundation doesn't fund university-based projects, schools, or organizations with budgets larger than \$1 million.

- Education: Sparkplug aims to support projects that deal with "the whole student" and with learning as a community activity. In the past, this has included literacy projects that bring parents and kids together to learn, projects that use a neighborhood as a classroom, and projects that help teachers share ideas about creative, relevant curricula, etc. We're especially interested in supporting critical and investigative thinking, and projects that address class disparities in education.

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: Threshold Foundation is a membership organization comprised of individuals with significant financial resources who contribute their time, money, and energies to support progressive social change through volunteer-based philanthropy. Threshold's grant programs include two core grant making:

- Sustainable Planet funding is focused on transforming both human culture and technology to live within the physical limits of the local and global ecosystems. This, in turn, will require addressing global ecological issues such as climate change, empowering local and indigenous communities, and deploying new clean technologies.

### Tides Foundation

AGENCY: Tides Foundation

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** Since 1976, the Tides Foundation has worked with donors to strengthen community-based organizations and the progressive movement through innovative grant making. We define "progressive" as creating a positive impact on people's lives in ways that honor and promote human rights, justice, and a healthy, sustainable environment. We have awarded more than 300 million dollars to nonprofits working for social change in this country and abroad. Most grants are made on the recommendation of one of our individual, family, or institutional donors who are interested in specific strategies furthering social change and environmental sustainability. Tides Foundation is a public charity offering individuals and institutions a vehicle for their philanthropy. It partners with individual and institutional donors through donor advised funds. Most grants are in the areas of health, human rights, community development, civic participation, environment, women's rights, and the arts. More recently, Tides has established collective giving programs to provide assistance to the Gulf Coast and other regions in crisis. These include:

- **Relief / Reconstruction Fund:** Through this fund, the Tides community supports victims of natural and civil disasters across the globe through grants to effective grassroots and advocacy organizations working for short-term relief, as well as long-term economic and structural change.
- **The ECO Fund:** The ECO grant making program will support organizations whose work focuses on the intersection of environmental protection, economic opportunity, social and racial justice, and democracy at all levels from local to international. In its first three years of grant making, the ECO Fund will support the entrance of new voices and constituencies into the national conversation about climate change, and a renewable energy economy.

**ASSISTANCE PROVIDED:**

- Project Grants

**ELIGIBILITY:** U.S. based, nonprofit organizations with federal tax exemption under Section 501(c)(3) of the Internal Revenue Code, or the international equivalent.

**DEADLINE:** Tides Foundation does not accept unsolicited Letters of Inquiry, proposals, or applications for funding. We may post open Requests for Proposals (RFPs) and/or calls for Letters of Inquiry (LOIs) related to a specific funding initiative or donor advised fund. Unlike many other foundations, Tides does not have discretionary grant making funds and has no open proposal submission process. Rather, we partner with individual and institutional donors through donor advised funds. Our fund advisors direct their own grant making, and most do not accept unsolicited proposals. Those funds with open solicitation are referenced on the website.

### Unitarian Universalist Funding Program

AGENCY: Unitarian Universalist Funding Program

GEOGRAPHIC FOCUS: Giving nationally

PURPOSE / FUNDING PRIORITIES: The Unitarian Universalist Funding Program has four areas of funding – three are related to expansion of their own beliefs and one is non-sectarian programming for a *Just Society*. Most grants are between \$6,000 and \$8,000.

Challenge or matching grants are acceptable.

Grants are given for one year. Second-year funding is possible after submitting a new proposal and a final (or interim) report. Third-year funding for the same project is unusual.

### Wadsworth Golf Charities Foundation

AGENCY: Wadsworth Golf Charities Foundation

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** Given the premise that “golf is a good and powerful teacher” for individuals (especially children), the concept of the *Links Across America* program is to build short courses – three, six, or nine hole – that will provide affordable access to golf across the industry. To bring about these venues and make these feeder short courses a reality; the foundation would partner with communities, park districts, YMCA’s, developers, an existing course (that has the land), hospital, forest preserve district or school district that can donate the land and operate the facility. In addition, a team of company partners from the golf course construction and golf facility industry would be established, who will – whenever possible – contribute profit, goods, or services to create the short courses at a significantly lower cost. In addition to a financial contribution, the Wadsworth Foundation would work with the ownership group to secure funding partners that are interested in becoming a title sponsor for the *Links Across America* course, or be the major donor and have it named after their company or family. The goal of the Wadsworth Golf Charities Foundation is to develop two short courses per year.

**ASSISTANCE PROVIDED:**

## Wallace Foundation

AGENCY: The Wallace Foundation

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** The Wallace Foundation is a national philanthropy that seeks to improve education and enrichment for disadvantaged children. The foundation has an unusual approach: funding projects to test innovative ideas for solving important social problems, conducting research to find out what works and what does not work and to fill key knowledge gaps – and then communicating the results to help others. To achieve this, the foundation currently focuses exclusively on five initiatives:

- **School Leadership:** Strengthening the leadership of principals and other key figures to improve student achievement.
- **After School:** Helping cities improve access to high-quality after-school programs through coordinating the work of government agencies, private funders, nonprofits, and other groups.
- **Summer / Extended Learning Time:** Supporting school district and other efforts to expand learning time during summer, and the school day or year.
- **Arts Education:** Expanding arts learning opportunities for children and teens in school and beyond.
- **Audience Development for the Arts:** Supporting arts organizations to develop and test ideas for reaching new audiences so that many more people might enjoy the benefits of the arts.

In each of these areas, our approach is to fund selected organizations to test promising new ideas, to conduct independent research about their efforts and related matters, and to share what we learn. The idea is to benefit our grantees as well as many organizations that are interested in pursuing similar changes but may never receive our direct funding. Other areas of continuing interest include:

- Libraries
- Adult Literacy
- Museum Audience Development
- Urban Parks

**ASSISTANCE PROVIDED:**

- Project Grants
- Advancing Philanthropy
- School Counseling
- Teacher Recruitment.

**ELIGIBILITY:** U.S. based, nonprofit, charitable organizations with federal tax exemption under Section 501(c)(3) of the Internal Revenue Code.

**DEADLINE:** In most cases, the foundation identifies and evaluates prospective grantees through the issuance of Requests for Proposals (RFPs) or other careful screening processes. Each RFP has its own deadline and will be posted online. Although unsolicited proposals are rarely funded, Letters of Request from potential new applicants are encouraged and may be submitted at any time. Applicants should submit their inquiries by email to [grantrequest@wallacefoundation.org](mailto:grantrequest@wallacefoundation.org) – briefly describing the project, the organization, the estimated total for the project, and the portion requiring funding. Current Focus on Hunger Relief: Wal-Mart and the Wal-Mart Foundation made a \$2 billion commitment through 2015 to hunger relief efforts in the U.S. in order to support the record 1 in 6 Americans who do not know where they will get their next meal. As hunger relief is now an integral part of the foundation's work, the foundation seeks to fund initiatives that integrate hunger relief into the main focus areas listed above.

The Wal-Mart Foundation has a particular interest in supporting the following populations: veterans and military families, traditionally underserved groups, the disability community and people impacted by natural disasters. When disasters strike, they can have a tremendous impact on a community. Fast, reliable access to vital supplies can make all the difference in areas that are facing overwhelming damage and destruction. Wal-Mart has the unique ability to draw from both its resources, and its logistics network to distribute relief supplies to communities in need immediately after a disaster takes place.

### Abelard Foundation East

AGENCY: The Abelard Foundation East

GEOGRAPHIC FOCUS: East of the Mississippi River

PURPOSE / FUNDING PRIORITIES: Successful applications to Abelard Foundation East satisfy criteria in three areas:

- Strategy: Fundamental to the grantees of the Abelard Foundation East is the strategy of community organizing as they work toward the goal of a more democratic, just, and equitable society. While organizations may engage in other complementary strategies, such as: advocacy, electoral participation, research, etc., the strategies are employed as a complement to the core focus on organizing. Part of an organizing strategy is the development of local leadership and the empowerment of their constituents. We look for strategies that reflect the connection between local work and broader policy issues and the efforts to address them at the state, regional, or national levels.
- Issues: Abelard Foundation East is committed to supporting local progressive social change activities that expand and protect civil liberties and civil/human rights, and promote and strengthen community involvement in – and control over – the decisions that affect their lives. We do not focus on any issues in particular; rather our grantees are involved in a broad range of issues, which involve the question of civil and human rights.

AGENCY: Rebuilding Together

GEOGRAPHIC FOCUS: Giving nationally

**PURPOSE / FUNDING PRIORITIES:** Rebuilding Together is the nation's leading nonprofit organization providing critical home repairs, modifications, and improvements for America's low-income homeowners. The organization and its local affiliates complete 10,000 home repair and improvement projects each year – free of charge to homeowners – by bringing together corporate partners, government and non-government agencies, national and local leaders, skilled trade associations, and 200,000 volunteers a year to make a difference in the communities in which it serves. Rebuilding Together has several targeted programs that address the needs of specific homeowner populations, including:

- **Safe at Home:** Addresses home repair and maintenance issues that represent safety risks or that limit access to or within the home.
- **Veterans Housing:** Focuses on home modification and repair services for retired and active service members, enabling veterans to live independently and safely in their own homes.
- **Disaster Recovery:** Once the immediate crisis of a disaster has passed, a community's long term recovery can take years. Rebuilding Together is committed to this recovery process, rebuilding neighborhoods and helping families return home, and incorporates long-term recovery efforts into its regular operational plan.
- **Green Housing:** Rebuilding Together believes that home repair and rehabilitation are inherently green. Through the repairs Rebuilding Together affiliates make, homeowners save money on utility bills, thrive in cleaner home environments and are better-able to afford other essential needs.

Aside from home repairs, Rebuilding Together positively impacts the condition of the surrounding community, as well, through community center rehabilitation, playground builds, and partnerships with organizations focused on:

- Education
- Energy Efficiency
- Sustainable Community Gardens
- Volunteer Engagement.

## Community Recovery Resource Guide

---

### Community Foundations Defined

Community Foundations are tax-exempt public charities organized and operated as a permanent collection of endowed funds for the long-term benefit of a defined geographic area. They are designated “public charities”, rather than “private foundations” by the IRS because they raise a significant portion of their resources from a broad cross-section of the public each year. Donors to community foundations are from diverse backgrounds with a common commitment to their communities’ well-being. Each community foundation has its own character, but they all share common traits:

- A mission to enrich the quality of life in a defined geographic area
- Service to three primary constituencies: donors--as a partner for giving, and a resource for information about local needs
- Charitable organizations--as a source of grants and technical assistance, and as a guardian of nonprofit endowments
- The community at large--as a force committed to helping their communities thrive over the long term
- A focus on building permanent endowment with as few restrictions as possible
- An independent local volunteer governing body that knows about and generally represents the community
- Accountability to the public and an openness to its broad participation.

Of the more than seven-hundred community foundations in the country, nineteen are located in Connecticut. Some cover geographic regions with multiple communities, while others support a single community.

Community Foundations offer:

- Personalized service by helping individuals, families, businesses, and nonprofit agencies achieve their charitable and financial goals by providing tools and resources that make giving easy, flexible, and effective.
- Local expertise by developing an in-depth understanding of the community's challenges, and the groups and individuals addressing them.
- Community leadership by playing a key role in addressing community needs, now and in the future.

### Appalachian Trail Conservancy

NAME: Appalachian Trail Conservancy

GEOGRAPHIC FOCUS: National

INFORMATION: The Appalachian Trail Conservancy's conservation work is focused on the protection and stewardship of land surrounding the Appalachian Trail (A.T.). This land base, spanning the Appalachian highland region from Georgia to Maine, connects significant state and federal lands and functions as an important flyway and migratory corridor. Running primarily along the ridgelines, Trail lands also protect headwater streams for major east coast watersheds. This protected area is one of the most significant corridors, or greenways, in the eastern United States.

Our conservation work is focused on identifying high priority tracts for permanent protection, working collaboratively with numerous conservation partners. We advocate funding land protection and for best management practices to effectively steward these lands in perpetuity. The ATC also plays an important role as land managers, assisting with the natural resource management of corridor lands to ensure that the integrity of protected A.T. lands is upheld for future generations to experience and enjoy. We strive to base management decisions on sound science and we work cooperatively with partners to develop our conservation approach.

They provide robust collections of city profiles, case studies, model policies, and communication tools found here will provide elected leaders, staff, and engaged stakeholders with a set of resources to guide and catalyze action across a range of topics such as:

- Transit- Oriented Development (TOD) Transit-oriented development, or TOD, is an approach to development that focuses land uses around a transit station or within a transit corridor.
- Complete Streets - Complete streets are designed to enable safe travel for all users, including pedestrians, bicyclists, motorists and public transit users.
- Energy Conservation & Efficiency -This section provides an overview on energy conservations, efficiency and management strategies.
- Green Infrastructure 101 - Comprehensive community planning represents the most effective tool available for the implementation of a green infrastructure network.
- Urban Agriculture - Cities are finding innovative solutions to food access and availability issues through urban agriculture programs and policies.
- Recycling - Learn about recycling from pay-as-you throw programs to engaging the public.

## Housing

- Energy Efficient West Virginia <http://www.eewv.org/background-1>
- Solar Decathlon House - The students at West Virginia University wanted to create a home that not only reflected the culture of the Appalachian people, but one that was also environmentally friendly. Their PEAK (Preserving Energy with Appalachian Knowledge) Solar House certainly meets these goals. Think of a country cabin combined with state-of-the-art green building strategies and you have the right idea. The house is an entrant in the 2013 Solar Decathlon and it strikes the perfect balance between green living and cultural preservation.
- Enterprise Green Community - Affordable Housing Design Leadership Institute (AHDLI) equips community development leaders to become stewards of design excellence. We bring mission-driven developers together with experts in design, development, policy, planning and finance to address urgent local problems while building design-thinking skills for people who work in community development organizations. - See more at: <http://www.enterprisecommunity.org/solutions-and-innovation/design-leadership/affordable-housing-design-leadership-institute#sthash.HNjQfljf.dpuf>
- West Virginia - Multi-family sustainable housing - Solar powered hot-water heaters. Locally-sourced wood products. A rain garden. Those are just some of the features of the Porter Triplex, a LEED-for-Homes energy efficient multi-family housing unit financed through the West Virginia Housing Development Fund's HOME Program. "The Porter Triplex is not only a wonderful project, it will be a great home to three families," said Erica Boggess, the Fund's Acting Executive Director. "We're proud to partner with everyone who made this happen and we hope this kind of sustainable, environmentally-conscious construction will serve as a model for all of West Virginia." <https://wvhdf.com/news/fund-helps-finance-environmentally-sustainable-rental-units>
